I checked the license file text and it report to be GPLv3 when it's stated on www.diydrones.com that the project is LGPL.

see <http://diydrones.com/forum/topics/clarification-of-license>

see <https://github.com/diydrones/ardupilot/blob/master/COPYING.txt>

This should be indeed clarified and fixed.

It's been clarified that the Project is GPLv3 and not LGPL. It indeed was changed for APM project. Thx
