* TiVo service is required and sold separately. No functionality is represented or should be expected without a paid subscription to the TiVo service. Pricing, terms and conditions subject to change. Receipt of TiVo service is subject to the terms of the TiVo service agreement.

TiVo service is accessed through a standard telephone line or broadband connection and is available as a local call in most areas. In some areas, local and long-distance toll charges may apply.

** A product lifetime subscription to the TiVo service covers the life of the DVR- not the life of the subscriber. Of course, hardware products don't last forever and their lifespan will vary among individual products. TiVo makes no representations or warranties as to the expected lifetime of the product aside from the manufacturer's warranty. Each DVR purchased requires its own TiVo service subscription and activation, and it cannot generally be transferred to any other DVR (see the TiVo service agreement for details).

† Wired or wireless network adapter required. Home Media Option premium feature package sold separately.

‡ Standard phone line required for initial call during Guided or Repeat Guided setup.
