We could, as they say in computerese, dump another Gigabyte (write another 50,000 or so pages) on Macintosh.

But you really can't appreciate how insanely great Macintosh is until you bring your index finger to an authorized Apple dealer.

Over 1,500 of them are eagerly waiting to put a mouse in your hand. To prove that, if you can point, you can use a Macintosh.

And if you can fill out a credit application, in most cases you can take one home the very same day. With the help of an Apple credit card.

Which makes owning the world's newest computer just as easy as using it.

Soon there'll be just two kinds of people. Those who use computers. And those who use Apples.
