

We designed them to meet two standards.

Ours. And the industry's.

With a Toshiba Very Small Business Computer or Word Processor, you'll never worry about obsolescence and reliability.

That's because they're designed to meet not only the industry's software and operating standards, but our own high standards of quality and dependability.

With Toshiba, you can rest assured knowing you'll get day-in, day-out dependability built

right in. We build most of the components ourselves . . . which gives us complete control over quality, reliability, and performance every step of the way.

And Toshiba now offers you a fully developed and comprehensive dealer program based on our high standards of quality, reliability, and deliverability. Which means you can build your product line . . . and your profits.

So when you're looking for a reliable, well-thought-out VSBC or Word Processor, remember the name Toshiba. Our standards are as high as yours.
