There has never been a Pascal compiler this good with so many powerful features. We know what you've been waiting for: a true Pascal compiler that works fast, offers a full screen editor, and has a great price.

Turbo Pascal has it all. First, we've included a built-in, interactive full screen, Wordstar compatible editor; it not only lets you correct errors, but during program compilation the cursor even jumps *directly* to the error and waits for your correction. No kidding. Second, it takes only 28K of disk space, including the editor; and on your microcomputer you need all the space you can get. *Turbo Pascal* is

10 to 70 times faster during compilation, as well as execution than Digital Research's MT+ or JRT Pascal.

Hard to believe your good fortune on the price? Don't worry. We're Borland, and we produce only quality, state-of-the-art software. Companies such as Micro Pro, Morrow Computers, Access and others distribute our software products, so you can't go wrong.
