

Introducing the two most powerful PC's on earth and off.

The new COMPAQ DESKPRO 386/20™ and the new 20-MHz COMPAQ PORTABLE 386™

The world now has two new benchmarks from the leader in high-performance personal computing. The 20-MHz COMPAQ DESKPRO 386/20 and the 20-lb., 20-MHz COMPAQ PORTABLE 386 deliver a level of system performance that can rival minicomputers'.

Plus they introduce advanced capabilities without sacrificing compatibility with the software and hardware you already own.

Both employ an industry-standard 80386 microprocessor and sophisticated 32-bit architecture. Our newest portable is up to 25% faster and our desktop is actually up to 50% faster than 16-MHz 386 PC's. But we did much more than simply increase the clock speed.

For instance, the COMPAQ DESKPRO 386/20 uses a cache memory controller. It complements the speed of the microprocessor, providing an

increase in system performance up to 25% over other 20-MHz 386 PC's. It's also the first PC to offer an optional Weitek™ Coprocessor Board, which can give it the performance of a dedicated engineering workstation at a mere fraction of the cost.

They both provide the most storage and memory within their classes. Up to 300 MB of storage in our latest desktop and up to 100 MB in our new portable. Both use disk caching to inject more speed into disk-intensive applications.

As for memory, get up to 16 MB of high-speed RAM with the COMPAQ DESKPRO 386/20 and up to 10 MB with the COMPAQ PORTABLE 386. Both computers feature the COMPAQ® Expanded Memory Manager, which supports the Lotus®/Intel®/Microsoft® Expanded Memory Specification to break the 640-Kbyte barrier.

With these new computers plus the original COMPAQ DESKPRO 386™, we now offer the broadest line of high-performance 386 solutions. They all let you run software being written to take advantage of 386 technology. *And to prove it, from now until December 31, 1987, we're including Microsoft® Windows/386 Presentation Manager free with your purchase of any COMPAQ 386-based PC.* It provides multitasking capabilities with today's DOS applications to make you considerably more productive. But that's just the beginning. For more information, or the dealer nearest you, call 1-800-231-0900, Operator 40. In Canada, call 416-733-7876, Operator 40.
