

**WE JUST THINK  
MOST COMPUTER  
COMPANIES  
HAVE THE WRONG  
ATTITUDE.**

What most companies are charging for a PC these days is plain robbery. So we

came up with a good way to offer fast, high performance computers for a whole lot less.

We sell direct to users like you. And when there's no middleman, no computer dealer, there's no dealer mark up.

PC's Limited systems are designed and built by Dell Computer Corporation right here in Austin, Texas. So you just pick up the phone, place an order, and we deliver MS-DOS® and MS®OS/2 compatibles right to you. Or you can call to get our free catalog.

Our complete systems prices include something else other manufacturers can't match. A one year, on-site

service contract from Honeywell Bull, along with access to our technical support people over toll free phone lines. And if you're not totally satisfied within 30 days we'll refund your money.

People seem to appreciate what we're doing. In just three years we've become one of the seven largest personal computer companies in the US. Part of that is because we produce some real fine systems. But a lot of it is nothing more than having the right attitude.

**PC'S LIMITED PERSONAL COMPUTER SYSTEMS**

We offer a broad line of made-to-order computing solutions that are easy to network and expand. Our complete Turbo PC system with a 20 MB hard disk drive is an ideal intelligent workstation starting at \$1,199. Our advanced 286 12 MHz MS-DOS® compatible, with a 40 MB hard disk, gives you the power of a minicomputer for as low as \$2,699. And the PC's Limited 386 16 MHz system, one of the fastest personal computers ever tested, starts at \$4,299, with a 40 MB hard drive. Color monitors are available at an additional cost.
