

**WE ARE WHAT
YOU MIGHT CALL
REAL COMPATIBLE.**

We know that when you're trying to carve out a spot for yourself it only makes good sense to get along with others.

So the PC's Limited personal computers designed and built by Dell Computer Corporation here in Austin, Texas are about as compatible as you can get.

Whether you want to run MS-DOS® applications, Windows/386 or software written for MS®OS/2, we have a system that'll do it faster than the others you may be thinking about.

And the thing is, we sell direct to users like you. There's no middleman, no computer dealer, so you never pay a dealer mark up.

Instead, you just pick up the phone, place an order, and PC's Limited computers are delivered right to you.

Or you can call for our free catalog.

Our low systems prices include something else other manufacturers can't match. A one year, on-site service contract from Honeywell Bull, plus access to our technical support people over toll free phone lines. And if you're not satisfied within 30 days we'll refund your money.

In just three years we've become one of the seven largest personal computer companies in the US. Mostly because a lot of people found out that their software and our hardware were made for each other.

PC'S LIMITED PERSONAL COMPUTER SYSTEMS

We offer a broad line of made-to-order computing solutions that are easy to network and expand. Our complete Turbo PC system with a 20 MB hard disk drive is an ideal intelligent workstation starting at \$1,199. Our advanced 286 12 MHz MS-DOS® compatible, with a 40 MB hard disk, gives you the power of a minicomputer for as little as \$2,699. And the PC's Limited 386 16 MHz system, one of the fastest personal computers ever tested, starts at \$4,299, with a 40 MB hard drive. High resolution color systems are available at an additional cost.
