

SOFTWARE

PROFESSIONALS

Ground floor openings are commonplace — it's the ceiling that counts. And who you'll be working with, and what you'll be learning and accomplishing.

Bell Labs in Murray Hill, NJ is in the process of setting up a new data center to serve all of the Laboratory's production needs. It will be a characteristically first class project with a large-scale, virtual systems environment, two 3033 and two 4341 CPUs and Bell Labs created languages and capabilities.

MVS SOFTWARE SPECIALIST

Requires 3-5 years experience in planning, generation, implementation and tuning in an MVS environment.

VM SOFTWARE SPECIALIST

Requires 3-5 years experience in generation, implementation, and tuning in a VM environment.

UNIX* SOFTWARE SPECIALIST

Requires 1-2 years experience in 'C' and Shell programming and ability to work independently at multiple sites in the design, coordination and implementation of the UNIX* operating system.

*Trademark of Bell Laboratories

DATA PROCESSING STANDARDS ANALYST

Requires 3-5 years experience developing, writing and publishing DP policies, procedures and standards.

Please send resumes including salary requirements to Mrs. V. Furman, Ref. ATS-70, Bell Laboratories, 150 JFK Parkway, Room 2D-408, Short Hills, NJ 07078
